

'Freedom from Fear' Topic of Bernum Sermon

Services of the Church of Religious Science are held each Sunday at the Masonic Temple, Ruby and Catalina Streets in Redondo Beach, beginning at 10:45 a.m., with a 15 minute period of meditation and organ music by MacDonald Scott. Mr. Thorsen Burman is this week's soloist, with Mr. Scott accompanying.

At 11 o'clock the Church School, under the direction of Dr. Evelyn Earle an dhte Metateens (the teenage church), directed by Adrian Bibee and Jenille Huss, hold their services. A competent attendant is in charge of the nursery.

Referring to his sermon on Sunday, the theme of which is "Freedom from Fear," Mr. Barnum declares:

"Whatever idea we hold, whatever thought we think, sets up activity. Therefore, let us be established in good thoughts, initiating only right action. Every idea is a creative word within our consciousness, which contacts the Infinite creative storehouse. Let us think of ourselves as we want others to think of us, for if we could but see the mentality of happy fear-free people, successful people, of healthy people, we would find the imprint of their experiences written in bold letters across the doorway of their consciousness."

First Gas Well
Albany, N.Y. (SF)—First commercial natural gas well in the U. S., 27 feet deep, was drilled at Fredonia, N.Y., in 1821, preceding the first oil well by 38 years.
